Possible. Messaging about this has been highly coordinated so I would need to check in with the OCSPP front office. Mike and Darlene let's put on our agenda. Ann please work with Sara to put a hold on my calendar.

Subject: Available to give PFAS in pesticide containers presentation on Thursday, January 28th Ag Issues Forum call?

Ed, Kimberly and Mike,

I learned a lot at your presentation to the Ag Advisors on PFAS contamination in pesticide storage containers yesterday and was hoping someone in your office would be willing/able to give a similar presentation to the larger group on our next monthly Ag Issues Forum call. The next call is scheduled for Thursday, January 28th from 2:30 – 4pm ET. Would someone be available for a brief talk?

Background about the monthly Ag Issues Forum call: EPA's Ag Center sponsors monthly calls on ag issues the fourth Thursday of every month from 2:30 – 4pm ET. Participants in the call are staff from EPA HQ and Regions interested in ag, and reps from USDA and USGS, as their schedules allow. No states are on the call. The calls are multi-media and cover a variety of topics – usually anything happening in EPA that is ag-related. Because participants come from a variety of backgrounds, we don't usually get too technical and keep the discussion at such a level that everyone can understand and participate. Others from your office are welcome to participate, as well – you can just forward the scheduler to them. If there are materials you'd like us to distribute prior to the call, we are happy to do that, or to provide helpful links for participants.

Thanks!

Sara Ayres
